I authorize the inspection of the addresses provided on this form. We will make all the necessary arrangements for the examination to be conducted at the times and date specified. In the case of purchases, we will provide the owners with information about your expected visit and get their consent to examine the structure. We understand that all information collected will be held in the strictest confidence and made available only to me, the above named client or my nominee. We understand that the information will not be copied.

ACCEPTANCE OF SOME CONDITIONS

1. All out of town inspections accrue a transportation cost.
2. A Pre-payment or a deposit is required for non members before visiting any site
3. Where a particular aspect of an inspection could not be ascertained because of inaccessibility the notation -nd- 'not determined' will be made.
4. We ask that we be well informed of any postponements or cancellations because the log use of those crew and equipment are strictly logged and any sudden change will mean an inability to reshuffle a client to that slot.
5. Appointments, especially out-of-town sites, have to be kept or the visit may still attract a visit expense.
6. Where necessary clients may be asked to speak directly to the 'seller' to clarify our reason for visiting.
7. Usually new homes are vacant but if it is occupied we may ask that items be cleared from certain "covered" areas. The below will then apply.

We ask that sellers not block access to normal living areas of their home. If the Caribpest inspector can't enter a room or complete some other aspect of the inspection, this will be noted in our report and the buyer may question it.

Unless the sale is "As is" If sellers agree to make agreed-upon repairs/correction promptly Caribpest will make this notation a positive comment in our report. The buyer may ask the inspector to note any repairs the seller agrees to make as a result of the inspection. The sooner the seller makes the repairs, the sooner the contingency can be met. Delaying the repairs until the last minute won't stop the buyer from having those items re-inspected, and it could delay the closing of any escrow.

Owners & Sellers

The rate quoted is provisional only, and may not be the final cost for **owners & sellers**. This rate is for doing the examination as thoroughly as possible. You will be foretold of any additional equipment or exercises which may be required as the inspection work is in progress and deeper observations are made and true sources & paths traced for extended investigations. A common example occurs [in sellers or owners' homes] where drilling and inserting a probe into walls, wood and trees become necessary.
